Whitefield, Bangalore

SUMMARY

I have **5.4 years** of experience in software testing, including **2 years** of expertise in automation testing (Web and API Automation).

SKILLS

- Selenium WebDriver
- API Automation (REST, SOAP)
- Test Automation Frameworks (Data-Driven, Hybrid, Page Object Model)
- Cucumber (BDD)
- TestNG / Junit
- Performance Testing (JMeter)
- Continuous Integration/Continuous Deployment (CI/CD)
- Version Control (Git, GitHub)
- Defect Tracking Tools (JIRA, Bugzilla)
- Agile Methodologies
- Mobile Testing (iOS, Android)
- Serenity Report Generation
- API Testing and Validation
- Security Testing Basics
- Performance Testing and Load Testing

TOOLS USED

- JIRA, Postman
- Selenium WebDriver
- Eclipse IDE
- Git/GitHub
- Playwright
- Rest Assured
- JMeter
- Serenity
- Cucumber

EDUCATION

Bachelor of Computer Science 2020 from Green Fingers College of Computer & Technology, Akulj.

PROFESSIONAL EXPERIENCE

i. Automation QA Engineer

Company: Gamify Studios | 2024 - Present

- Develop and maintain robust, scalable test automation frameworks using **Selenium WebDriver, Data-Driven, Hybrid** and **Page Object Model** methodologies to ensure efficient and reusable test scripts.
- Automate functional and regression tests for **REST** and **SOAP** APIs, validating their functionality, **security** and **performance** to ensure seamless integration with the application.
- Extensive experience in **functional, integration, GUI, smoke, and exploratory testing**, ensuring high-quality releases.

ii. Software Engineer - Quality Assurance

Company: Mobigic Technology | April 2023 - Dec 2023

- Proficient in **BDD** using **REST Assured** for **API automation** testing, ensuring robust validation of web applications.
- Developed optimized **Java** and **Selenium scripts**, reducing manual testing efforts by 40% and error rates by 20%.
- Integrated automated testing with **CI/CD pipelines**, improving deployment efficiency by 30% and reducing production defects by 15%.
- Actively participated in Scrum ceremonies, contributing to sprint goal achievement and project alignment.

iii. Quality Assurance Engineer

Company: Webosphere Technolabs LLP | Dec 2021 - Nov 2022

- Design, execute and maintain test cases to ensure the functionality and performance of applications meet specified requirements.
- Conduct thorough manual testing, including **functional, regression** and **user acceptance** testing to identify and document defects.
- Collaborate with developers and product teams to report issues, track defects and verify bug fixes.
- Provide feedback on product usability and contribute to the creation of test documentation to ensure complete test coverage.

iv. Senior Associate

Company: Wipro Limited | Jul 2019 - Jan 2022

- Conducted **functional, regression, integration, system** and **acceptance testing** to validate application performance.
- Performed rigorous functional testing, ensuring 100% alignment with client expectations and achieving a 20% increase in product quality.
- Diagnosed and documented software defects, reducing post-release issues by 15%.
- Partnered with cross-functional teams, improving testing processes and quality standards, leading to a 15% reduction in defect reoccurrence.
- Led defect review meetings, accelerating issue resolution by 30% and improving software quality across multiple releases.
