WORK EXPERIENCE

Senior Software Engineer Indexnine Technologies

04/2024 - Present

Pune, India

Achievements/Tasks

- I have utilized a diverse range of tools and technologies, including Python, LambdaTest, ECS, ECR, Jenkins, GitHub, Bitbucket, Jira, ALM, GitHub Actions, BrowserStack, Robot Framework, Selenium, and KaneAI.
- I contributed to cloud automation, streamlined CI/CD pipelines, and implemented advanced test automation frameworks to ensure efficiency.
- Collaborating with cross-functional teams, I delivered innovative solutions while adhering to industry standards and ensuring seamless execution.

Automation Test Analyst Accenture Solution Private Limited

08/2021 - 03/2024

Achievements/Tasks

- Utilized Python, ALM, Robot Framework, Sikuli, Selenium, Jenkins, and Cursor AI to conduct comprehensive regression testing on iOS devices with Xcode.
- Ensured product quality through detailed bug reporting, mobile testing on iOS and Android platforms, and API validation using Postman and custom API libraries.

Internship Appin Technology

12/2019 - 01/2020

Bhopal, MP, India

Achievements/Tasks

- Completed on-the-job training, collaborating with supervisors and team members to refine industry knowledge and resolve process-related queries. Attended specialized training programs to enhance proficiency in industry-specific processes, methodologies, and best practices.

EDUCATION

B.Tech in Computer Science LNCT Group Of Colleges, Bhopal

08/2017 - 06/2021

(8.8CGPA)

SKILLS

Python

Robot Framework

Selenium

Appium

AWS

RDBMS

Sikuli

ALM

GitHub actions

GIT

Jenkins

BrowserStack

Lambdatest

JIRA

KaneAI

Mobile Testing

API Testing

Web Testing

Regression Testing

ECS

ECR

Pytest

Functional Testing

Database Testing

SQL

Tosca

PROJECTS

TripJack (10/2024 - 11/2024)

- Oversaw a team of five professionals, working in close collaboration with the client to gather and clarify project requirements. Led the automation efforts for the website using Selenium, Robot Framework, and Python, while also creating and executing detailed manual test cases to ensure comprehensive coverage and quality standards.

Sportz Interactive (04/2024 - 09/2024)

- Developed a CI/CD pipeline using GitHub Actions to automate test case execution on ECS and ECR. Automated web and mobile application testing, ensuring efficient deployment and continuous integration across platforms.

Merck (12/2021 - 03/2024)

- Automated client-driven use cases using Python and designed a comprehensive test suite for regression testing. Managed test execution and reporting with Jenkins, while facilitating bug tracking and resolution through ALM and Jira after each deployment.

CERTIFICATES

AWS Cloud Practitioner (12/2024 - Present)

DBMS With NPTEL (02/2022 - 04/2022)

C Programming With NPTEL (08/2019 - 12/2019)
