To leverage my 3+ years of experience in manual testing and API testing, along with expertise in Postman and SQL, to ensure the delivery of high-quality software solutions. Seeking a challenging role where I can contribute to improving application performance and user satisfaction by utilizing my skills in defect tracking, test case design, and database validation. Committed to continuous learning and enhancing testing strategies in an Agile environment.

EXPERIENCE

56 AI TECHNOLOGIES PRIVATE LIMITED

18th July 2022 till 30th Nov 2024

Quality Analyst

- Experienced QA professional with 3 years of expertise in manual testing, API testing using Postman, and database validation with SQL, ensuring comprehensive software quality.
- Skilled in designing test cases, conducting functional, regression, and system testing, and managing the defect lifecycle efficiently using Jira.
- Proficient in validating RESTful APIs, automating test scripts with Postman collections, and optimizing testing processes with reusable SQL scripts.
- Successfully reduced defect leakage by 20% and improved testing efficiency by 30% through automation and process optimization.
- Strong technical and collaboration skills, with hands-on experience in Agile methodologies, delivering high-quality software within deadlines.

FLEXI SAFE TECHNOLOGIES INDIA PVT. LTD.

21st Dec 2020 till 13th July 2022

Software Test Engineer

- Banking Application Testing: Conducted extensive manual testing of online banking platforms, mobile apps, and internal financial systems, ensuring adherence to business requirements and regulatory standards.
- Defect Management: Identified, logged, and tracked defects in Jira, collaborating with developers for timely issue resolution to minimize user impact.
- Requirement Analysis & Test Case Development: Collaborated with business analysts to understand banking-specific requirements and developed comprehensive test cases that covered transaction processing, compliance checks, and account management.
- Functional & Regression Testing: Performed functional, integration, and regression testing to validate transaction flows and ensure the stability, accuracy, and security of financial operations.
- Data Validation & Reconciliation: Utilized SQL for validating and reconciling financial data across systems, ensuring data accuracy in transactions and compliance with regulations.
- UAT Support & Compliance: Supported user acceptance testing (UAT) phases, ensuring compliance with banking regulations, data privacy, and security standards while addressing feedback from end-users.

EDUCATION

SHREE RAMCHANDRA COLLEGE OF ENGINEERING

2014 - 2018

Bachelor of Engineering (Electrical Engineering)

BT POLYTECHNIC

2011 - 2014

Diploma in Electronics & Telecommunication

SKILLS

- Manual API Testing using Postman
- Elastic Search
- Test Planning and Execution
- Regression Testing
- Defect Tracking and Reporting
- Cross-functional Collaboration
- SQL
