### PROFILE SUMMARY

Proficient Software Engineer with nearly 3 years of experience in **Backend development**, specializing in building scalable and secure applications. Proficient in **Core Java, Spring Boot, Microservices and MySQL**, with a strong track record of delivering high-performance solutions in the Telecom sectors. Expertise in optimizing database performance, developing robust **RESTful APIs**, and leveraging Agile methodologies to improve team collaboration, software quality, and delivery efficiency. Demonstrated ability to enhance system performance and streamline workflows for **Continuous Improvement**.

### EXPERIENCE

#### Jounetsu Solutions Pvt.Ltd

Bangalore, Karnataka

Software Engineer

April2024- Present

- Developed and tested **RESTful APIs** using **Postman**, validating functionality, performance, and compliance with technical requirements.
- Actively contributed to performance optimization by reducing latency, improving query execution, and enhancing system uptime through robust error handling, monitoring, and logging strategies.
- Worked within **Agile Scrum teams**, participating in sprint planning, daily stand-ups, code reviews, and retrospectives, driving **continuous improvement** in development workflows.

#### Ericsson Global India Services Pvt.Ltd

Pune, Maharashtra

Software Developer

April2022-April2024

- Design **Backend APIs** in the Microsoft Licensing Agreement team which reduces the manual efforts required to process the client contract and speed up the process from **90days to 18 days**.
- This enhancement effectively improves the operational efficiency by **500%**, marking a remarkable shift from the older, legacy code to the modern streamlined codebase.

### PROJECTS

#### Zain KSA

April2024-Present

Roles and Responsibilities:

- Ensured design compliance with specifications, exploring and evaluating alternative technologies.
- Participate in **Agile** workflows, using **Jira** for task tracking and sprint management, ensuring consistent delivery of required features.
- Conducted detailed software analysis, programmed, tested, and debugged applications to ensure smooth functionality.

#### Verizon vEDA

April2022-April2024

Roles and Responsibilities:

- Identified necessary **code changes** based on business requirements, collaborating with the team for effective knowledge sharing.
- Monitor and enhance backend processes to improve system scalability, reliability, and speed for software applications.
- Analysed requirements, designed software components, and conducted comprehensive coding and testing.
- Participate in code reviews to ensure adherence to standards, maintaining robust architecture and high-quality deliverables.

### SKILLS

**Programming language:** JAVA

**Technical Skills:** Multithreading, core java, Advanced Java, Spring, Sprigboot, DSA, Microservices

JDBC, Hibernate, MySQL Database, Agile, CI/CD, Git/GitHub, Data JPA

### EDUCATION/CERTIFICATION

- Bachelors of Engineering in Electronics and Telecommunication Pune
- Completed Internship as a **Spring Boot Developer** Pune
- Advanced certification in **Java Backend Developer**
