## WORK EXPERIENCE

### Quality Engineering Analyst Infosys

06/2021 - Present

Pune, India

#### Achievements/Tasks

- Developed and executed comprehensive test plans, test cases, and test scripts for both manual and automated testing of Salesforce functionalities, including workflows, validation rules, and custom developments.
- Performed integration and user acceptance testing including bug reporting and tracking for about 12 releases.
- Performed functional and API testing on Salesforce applications. Conducted manual testing, ensuring the comprehensive evaluation of Salesforce functionalities, including the testing of complex application features, meticulously documenting and reporting test results.
- Reported defects with clear documentation and collaborated with the development team to resolve them.
- Applied testing methodologies within an agile-based testing model to ensure iterative and continuous testing. Led end-to-end testing of software products, starting from requirement analysis to design, planning, coding, and testing. Participating in sprint planning, daily stand-up, sprint review & retrospective meetings.
- Successfully implemented automation scripts, reducing manual testing efforts by 30%. Data-driven testing and cross-platform testing enable comprehensive test coverage to increase by 10% by executing a large number of test cases, including edge cases and scenarios that may be challenging to cover manually, resulting in a defect-free release.
- Provided mentorship and guidance to junior team members, sharing best practices and fostering a culture of quality excellence within the team.

## EDUCATION

### Bachelor of Technology Madhav Institute of Technology & Science

07/2017 - 06/2021

Gwalior MP

#### Courses

- Information Technology

## SKILLS

Manual Testing

Scrum

Test cases design , steps

Java

Javascript

API Testing : Postman

Defect analysis and defect retest

MySQL

Selenium

TestNG

Automation Experience, Execution of test cases using Selenium UATF Framework

Salesforce

Git and GitHub

Experience in Bug-tracking systems such as JIRA , TP

Strong understanding of Agile development methodologies and practices.

## CERTIFICATES
