To achieve personal & professional growth in work. Looking for better opportunity to utilize my strength and build up my career.

Experience Summary

5.5 years of experience in the field of **Software Testing** with Automation Testing, Web ServiceTesting, Database Testing.

Professional Competency

My experience in the IT industry over the past **5.5 Years** has enabled me to achieve the following skills.

- Experience in domains like **Data fabric**, **Investment Banking & Telecom Billing.**
- Strong knowledge on **Manual** testing with functional, database testing.
- Experience in writing **SQL** Queries against database for data verification.
- Involved in Test case **Design**, **Review** &**Execution.**
- Excellent hands-on experience in handling the defects throughout the **Bug life cycle** from detection until resolved using **Jira.**
- Expertise in **Functional Testing, Non-Functional Testing, System Testing, Regression Testing, Sanity Testing.** Efficient in handling **User Acceptance Testing.**
- Clear understanding of **SDLC** and **STLC**.
- Experience in **Agile** methodology & have knowledge of **V-model.**
- Hands on experience on test documentation like **Test Scenarios and Traceability Matrix.**
- Involved in **Usability Testing**& **Globalization Testing.**
- Exposure of **Testing-Terminologies**.
- Effective **Defect Tracking &Reporting** to improve communications and reduce delay.
- Good Hands-on experience on **Cypress with JavaScript** with Mocha reporter
- Good Hands-on experience on **Selenium** (Web driver) with best knowledge of **Action & Keys class, POM, Page factory, TestNG Annotation, assert class by using Data Driven**

- **Framework.**
- Actively participate in **Cross-browser Testing.**
- Handled **Pop-ups, List boxes, I-frames** and **Exceptions.**
- Basic knowledge of **OOPS concept and Collection.**
- Knowledge about **API & Web service Testing.**
- Basic knowledge in **UNIX.**

Education

Completed B.E from Shivaji University, Kolhapur, Maharashtra .

Employment History

Current **– LTIMindtree,** Pune as a **Senior Quality Engineer** from July 2022 to Till .

Previous – **Globminds Technology**, Pune as a **Software Test Engineer** From April 19 to July 2022

Technical Skills

Testing knowledge : Functional Testing, Web based Testing, Automation Testing

Tool   : Cypress, Selenium, JIRA, SQL, JMeter, Postman, Maven,

   TestNG, Eclipse, Visual studio, Mysql Server management

Microsoft Product   : SQL, Excel,

Operating System   : Windows XP/10, UNIX

RDBMS   :SQL Server 2014

Language   : core JAVA , Javascript

Project Snapshot

Project: 1

Name of Project: Optic
Testing tools: Jira, Cypress ,Jmeter, Postman , VS code,Git ,Jenkins

Project Description :
Optic is a data cataloging product designed for data-driven enterprises. It is based on a modern data fabric architecture enabling enterprises to create an internal data marketplace. Optic helps personas like Data Scientists, Data Engineers, Data Analysts, Chief Data Officers, etc. by creating a data catalog of all intelligence assets: Datasets, Documents, ML/AI Models, Data APIs, and BI Reports - with a simple, intuitive & contextual interface for each persona.
Roles and Responsibilities:

- Based on business/customer requirements prepared test cases.
- Execute the test cases based on the requirements (SRS).
- Performed Functionality Testing, Regression Testing and Database Testing. Used Jira for Defect Tracking ,Reporting, and Releases.
- Updated the bug status and discussed with developers to resolve the bugs.
- Automating the manual Test Case with Cypress.
- Creating/Updating Demo Script for every Major release.

- Preparing QA Demo Deck and Present Sprint QA Activity to stack holders.
- Preparing customer facing document called user guide on specific functionality when needed.
- Checking performance of newly developed APIs by JMeter.

Project: 2

Name of Project: Data Market
Testing tools: Manual Testing – Jira, Automation Testing, Web-service Testing

Project Description :

Creating data products from data assets and domains is a key feature in modern data market place.

Roles and Responsibilities:

- Based on business requirements created Data for POC
- Performed Functionality Testing, Regression Testing and Database Testing.
- Updated the bug status and discussed with developers to resolve the bugs.
- Inserted Information in application as per demo requirement for POC.

Project: 3

Name of Project: Capital
Market**Client :**Citigroup**, USA
Environment: Java, J2EE
Testing tools: Manual Testing – Jira, Automation Testing, Web-service Testing

Project Description :

A merchant account allows you to accept card payments for goods or services in person, over the telephone, or on the Internet. Being able to accept online payments is crucial to holding a competitive edge in today's business environment. Card Payment Systems can provide your business convenient, reliable, and secure merchant account solutions. It has several Modules like Buyer, Payer and Admin.

Roles and Responsibilities:

- Based on business requirements prepared test cases.
- Execute the test cases based on the requirements (SRS).
- Performed Functionality Testing, Regression Testing and Database Testing.
- Used HPALM for Defect Tracking and Reporting.
- Updated the bug status and discussed with developers to resolve the bugs.

Project: 4

Name   **:** Veris (CRM Telecom Billing)
Client   **:** Asia Info
Environment : JAVA, HP-ALM, SQL
Testing   **:** Functional Testing

Project Description :

It signifying accuracy and flexibility-two of the most important characteristics of telecoms IT systems. The core products within the Veris Suite include telecom Billing, CRM and Business Intelligence, which are viewed by most experts as the heart of telecoms IT infrastructure. It recognizes the criticality of these systems, and are proud to have successfully delivered them to some of the world's largest telecom operators during the past two decades.

Roles & Responsibilities involved:

- Involved in file validation.
- Performed database testing.
- Log the defect.
- Involved in test Report.
