SOFTWARE ENGINEER

SUMMARY

Results-driven Java and Spring Boot Developer with 2.8 years of experience in designing, developing, and implementing robust applications. Adept at creating scalable solutions and optimizing application performance, I have successfully contributed to multiple projects that enhance user experience and operational efficiency.

My expertise lies in leveraging Java, Spring Boot, and related technologies to build secure and maintainable solutions. I have a strong foundation in RESTful APIs, cloud services, and database management, allowing me to deliver high-quality software that meets business requirements.

PROFESSIONAL EXPERIENCE

INFOSYS – SYSTEMS ENGINEER
2022 - Present

Job Profile: **Backend Java Developer** (KYC Project) **(2.8 Years)**
Position Overview:

As a Backend Java Developer in our KYC project, I played a key role in developing and maintaining backend systems that ensure compliance with financial regulations. Our primary responsibilities involved providing technical support, troubleshooting customer issues, and implementing solutions to improve system performance and ensure reliability.

Key Responsibilities:

Development: Design, develop, and maintain backend services and APIs using Java and Spring Boot to support KYC processes.

Support & Troubleshooting: Provide timely support to resolve customer issues, analyzing root causes, and implementing effective solutions.

Collaboration: Work closely with cross-functional teams, including product management and front-end developers, to understand requirements and deliver high-quality solutions.

Code Quality: Ensure code quality and maintainability through best practices, code reviews, and unit testing.

Documentation: Create and maintain documentation for APIs, system configurations, and troubleshooting guides to facilitate knowledge sharing within the team.

Continuous Improvement: Identify areas for system enhancement and performance optimization, contributing to overall process improvements.

TECHNICAL SKILLS	Programming Languages: Core Java, Java 8, SQL
	Frameworks: Spring Boot
	Database: MySQL
	Tools: Eclipse, IntelliJ, Git/Bitbucket, Postman, MySQL Workbench
	Other Technologies: RESTful APIs, Microservices

CERTIFICATIONS	**Oracle Certified Java SE8 Programmer 1 (1z0-808) (External Global Certification)**
	Infosys Certified Java SE8 Developer (Internal)
	Infosys Certified Spring Boot Developer (Internal)
	Infosys Certified Java Programmer (Internal)
	Infosys Certified MySQL Associate (Internal)
	Infosys Certified Spring Associate (Internal)
	Infosys Certified Spring Microservices Developer (Internal)
	Infosys Certified SCM Microservice with Spring Boot Professional (Internal)

EDUCATION	SNJB's KBJ College of Engineering Chandwad (2017-2020)
	Savitribai Phule Pune University, Pune (Mechanical Engineering)
