WORK EXPERIENCE

DFO -ThermoFisher
Persistent Systems   MAY 2023 - PRESENT

- Analyzed user stories and collaborated with the Product Owner to identify and suggest any necessary modifications.
- Devised test strategies by breaking down complex features into smaller, independently testable components, ensuring maximum test coverage.
- Performed thorough functional, regression, and smoke testing to deliver high-quality products that meet business requirements.
- Worked closely with development teams to share feedback, address issues, and ensure smooth feature development and bug resolution processes.
- Participated in agile ceremonies, including sprint planning, daily stand-ups, and retrospective meetings.
- Proactively identified areas for process improvement and implemented solutions to enhance testing methodologies and productivity.
- Mentored junior QA team members, providing guidance and support to promote their professional growth and development.
- Engaged in demonstrating sprint deliverables to the client.

Walgreens Boots Alliance
Persistent Systems   Jan 20-March 23

- Working as QA lead in requirement analysis, allocating QA tasks to resources, defect management, and tracking.
